

International Network of Networks for Well-being In the Built Environment (IN2WIBE)

The 3rd IN2WIBE Panel

- ✓ Time: 12:00pm to 1:30pm (CDT) on **September 8th, 2022**
- ✓ Location: Virtual Zoom Meeting
- ✓ Zoom: <https://tamu.zoom.us/j/92027051556?pwd=aTN1MHgyT1kwYW5kU2diSHprVHFGQT09>
- ✓ Meeting ID: 920 2705 1556 Passcode: 431857
- ✓ Topic: Contributions of Occupational Science and Occupational Therapy to Well-Being in Built Environments
- ✓ Moderator: [Dr. Shawn Roll](#) (University of Southern California)
- ✓ Panelists: [Dr. Malcolm Cutchin](#) (Pacific Northwest University of Health Sciences), [Dr. Melissa Park](#) (McGill University), and [Dr. Roger Smith](#) (University of Wisconsin Milwaukee)

This panel will provide foundational understanding of Occupational Science/Occupational Therapy (OS/OT) perspectives that can be integrated and inform health within built environments. Panelists will discuss social and environmental determinants of health and built environment's impact on well-being. The panel will highlight how built environments could support occupational engagement and social connectedness and discuss various methods to support measurement of experiences, participation, and human connection within built environments. The aim of this panel is to bring together built environment scholars with OT/OS scholars with the aim of cultivating collaborative opportunities for improving engagement, access, and inclusion in the built environment for all individuals.

- ✓ Organized by **NSF AccelNet project IN2WIBE** (<https://in2wibe.net>)

IN2WIBE connects and educates future building scholars on well-being in buildings while informing better building design, construction, operation, and use. This will be achieved through leveraging resources from 33 existing networks and partners in 5 continents (N. America, Africa, Europe, Australia, and Asia), comprising a total of 17 countries.

IN2WIBE provides an opportunity to unite disciplinarily, culturally, and geographically diverse networks around the world. Four objectives of IN2WIBE are to: 1) facilitate new forms of collaborations by integrating disciplines and networks in building and health fields; 2) engage networks at multiple stages and scales; 3) produce innovative human-centric building design and operation strategies that will benefit the larger community of scholars and practitioners; and 4) prepare a next generation of professionals with a diverse background.

Steering committee: Zheng O'Neill, Burçin Becerik-Gerber, Jin Wen, Simi Hoque, Teresa Wu, Giulia Pedrielli
